India India too, they are remarkable in their similarity. The cause could vary from country to country. For example, while in the USA there is a teenage out-of-wedlock pregnancy every three seconds and a sexually transmitted disease every 13 seconds, in India most of the pregnancies occur within marriage and no statistics on sexually transmitted diseases among adolescents are available. It is considered to be high and perhaps equal to the USA figures. The process of adolescence is a period of preparation for adulthood during which time several key developmental experiences occur. Besides physical and sexual maturation, these experiences include movement toward social and economic independence, and development of identity, the acquisition of skills needed to carry out adult relationships and roles, and the capacity for abstract reasoning. Almost any of the physical changes occurring during adolescent can cause concern to the boy or...
